Trustees Report

Ridgeway- IDOT would need to do a sturdy in regards to speed to set up a crossing for Casey's. He will also talk to B. Robison at the school. The ramp at T's is for the benefit of elderly customers of L. Proctors. Will check into this further. Ordinance enforcement is going well. Asks about 2 meetings a month. If this is to become a permanent change then it will have to be published and an ordinance created. A special meeting can be called anytime with a 48 hour notice, rather than change the meeting times according to Colette. Ditch at Dr. Sochors needs culverts in it.

Tirpak-has heard of golf carts traveling to Casey's. They can not travel on the state highway and are not allowed to go through the school parking lot. School did a nice job on their parking lot. Mick was the one wanting the RV park to be maintained legally. He received a call from C. Brown about it.

Price-has received complaints about the no parking on Monroe Street. The loading zone sign can be removed from in front of the old H&H Upholstery shop. If the sign was put up by ordinance, it has to be removed by ordinance.

The no parking will be enforced by the police department and they will use their discretion when enforcing the signs.

The railroad has given the Village permission to remove the old loading dock. Jerry Morris has met with the RR representative and would like to remove it. That is fine with the village.
